

Kenneth A. Thornburgh, Ph.D.

Dr. Thornburgh is the Executive Vice President of AEG and, as such, is responsible for business development and assisting technical operations by conducting specialized surveys and writing most of the comprehensive and sophisticated protocol reports.

Dr. Thornburgh holds a Bachelor of Science degree in Psychology from Kent State University, a Masters of Science degree in Occupational Safety & Health from Miami University, a Specialist degree in Industrial Hygiene from Central Missouri State University, and a Doctor of Philosophy in Safety Engineering from Texas A&M University. In addition Dr. Thornburgh has attended copious seminars, workshops, and training programs in Industrial Hygiene, Occupational Safety and Health, Environmental Engineering, and Environmental Chemistry. Dr. Thornburgh holds various industry credentials, certifications, and registrations, including California registration as an Environmental Assessor (Registration No. R.E.A. 02441), and as a Certified Asbestos Consultant (Registration No. 92-0500). He is a member of some of the most renowned professional organizations, including the American Industrial Hygiene Association, American Society of Safety Engineers, and the Association of Automotive Medicine. He is currently a member of the national executive board of the Indoor Environmental Standards Organization (IESO), and American National Standards Institute (ANZI) standards development organization.

Dr. Thornburgh has conducted research in the areas of Industrial Hygiene, Safety Engineering, Occupational Health and Environmental Chemistry. He is also a respected lecturer and seminar speaker, and is a frequent speaker at professional conferences.

Dr. Thornburgh has over 25 years of professional experience. He has served as a Safety Engineer at a large manufacturing facility, an Industrial Hygienist for a national consulting firm, a Professor of Industrial Hygiene, an Administrator of a Fire and Safety Institute, a Corporate Director of Training for a national environmental consulting company, a regional Vice President for a national environmental consulting company, and as president for a mid-sized regional consulting/engineering company. Dr. Thornburgh has also provided extensive legal research and expert testimony in the areas of Industrial Hygiene, Safety Engineering, and Occupational Safety and Health.
